

FIVE DOLLAR ACTS OF KINDNESS

A long time ago, Jesus used the small gift of five loaves and two fish to feed the multitudes. One act of kindness had a multiplier effect -- generosity created communal fulfillment.

That got us thinking...what would happen if members of our community mimicked this small gesture? A can of sardines and a sleeve of saltines costs about \$5. We're using that same amount to underwrite one act of kindness for a neighbor.

If you are reading this card, you are either the initiator or recipient of an act of kindness. If you are the initiator, give thought to how you might do something spontaneous and kind for a person you encounter this week. And if you are so bold, consider sharing your action on social media via the hashtag

#5DollarKindness

If you have been the recipient of a kindness, we'd love to hear your reaction, too! And we invite you to consider sharing a kindness with someone you encounter.
